

Fantasy Football Top 100 Picks

Here are our Top 100 fantasy football picks based on 12 tms in a basic scoring format. Our actual rankings on the following pages will include performance points and thus are a bit different. Of course, different leagues emphasize different scoring methods, and you should make adjustments in your draft to correspond to your league's scoring system. This year the Top 10 shows half are from the QB position, but the Top 25 gives the nod to RB's & then QB/WR. The Top 50 keeps RB's at the top followed closely by QB/WR. (Top 10: QB=5, RB=4, WR=1), (Top 25: RB=9, QB=8, WR=8), and (Top 50: RB=17, QB=14, WR=14, TE=4, K=0, DEF=1)
